

## **AGENDA**

## Instructional Decision Making Using Student Achievement Data: A Research Forum for Northwest Region Leaders

October 28, 2010 Educational Service District 112, Vancouver, WA

Time	Topic	Proposed presenters /objective
8:30	Welcome and overview of the day	Presenter: Dr. Edith Gummer, REL
a.m.	Welcome and description of the larger	Northwest
	context for this Bridge Event, including	Objective: Provide background for the
	types of work the Regional Educational	Bridge Event, have participants
	Laboratories (RELs) are doing and specific	introduce themselves through a warm-
	REL Northwest projects currently	up activity, review agenda.
	underway. Participants engage in a table	
	activity to introduce themselves and their	
	school situations. Provide an overview of	
	the day's activities and share materials.	
9:00	PowerPoint presentation of What Works	Presenter: Dr. Gummer, REL
a.m.	Clearinghouse information	Northwest
9:15	Session 1: Researcher perspective on the	Presenters: Dr. Ellen Mandinach and
a.m.	Institute of Education Sciences (IES)	Sharnell Jackson
	practice guide Using Student Achievement	Objective: Provide participants with
	to Support Instructional Decision Making	the research base on use of student
	Presentation of the research, findings, and	achievement data to support
	recommendations for practitioners.	instructional decision making as
	Discussion of the quality of the research and	highlighted in the IES practice guide,
	what additional efforts to improve the use	including limitations of the study.
	of student achievement data are needed.	
	Small groups will generate questions for the	
	presenters. (Approximately 45 minutes for	
	presentation and up to 15 minutes for	
	Q&A.)	
10:30	Break	
a.m.		

Time	Topic	Proposed presenters /objective
10:45	Session 2: Data Governance Group panel	Moderator: Dr. Gummer, REL
a.m.	Washington Data Governance Group	Northwest
	members will present current work on the	Presenters: Selected Washington Data
	state data system and support for	Governance Group members
	instructional data-driven decision making.	Objective: To update the LEA staff on
	(Approximately 45 minutes for presentation	support from OSPI and the state data
	and 30 minutes for Q&A.)	system under development.
12:00	Lunch	
p.m.	(Note: Lunch will be provided by our host,	
_	ESD 112.)	
1:00	Table groups will respond to structured	Facilitators: Dr. Mandinach and
	questions about their instructional data-	Sharnell Jackson
	driven decision making practices and	
	identify how new support from OSPI will	Objective: To identify features of local
	be incorporated.	data systems and the need for
		additional support and technical
		assistance planning by the state
1:45	Session 3: ESD and district panel on data-	Moderator: Dr. Mandinach
	Session 3: ESD and district panel on data- driven decision making at the local level	
1:45 p.m.	driven decision making at the local level	Moderator: Dr. Mandinach Presenters: Selected ESD and district staff members
